Beginning Forth Programming

June 17-21, 1985

Humboldt State University

Prof. Ronald Zammit

This is hands-on, introductory course for individuals wanting enough knowledge and experience with Forth to write applications programs. A prospective student should have previous programming experience in another language. The standard, F83, and IBM PC's will be used. Each student will be given a public domain copy of F83. The fee is \$150 or \$200 with 3 hours of academic credit.

Using Forth Effectively

June 24-28, 1985

Humboldt State University

Mr. Kim Harris

This is advanced, hands-on workshop applying Forth to real-world problems. During the course, a comprehensive problem will be solved. Some experience with Forth is required. The fee is \$150 or \$200 with 3 hours of academic credit.
