
The Esperanto Engine

Attendees: Maurice (Mo) Welch
Allyn Richardson
Israel Urieli
Charles Longway
Jill Miller
Dick Miller

Jill Miller presented an introduction to the logical structure of the Esperanto language. A small set of combinatorial prefixes, suffixes and root words were manipulated to make many words, and some practical aspects of Esperanto usage were discussed. Parallel techniques between Esperanto and English, and between Esperanto and Forth were discussed. FORTO, an Esperanto variant of Forth, was not completed during this meeting.
