

# SIG FORTH '90

**CALL  
FOR PAPERS**

**acm**

for the second annual

## **FORTH APPLICATIONS WORKSHOP on REAL TIME DEVELOPMENT**

**COLONY PARKE HOTEL · Dallas, TX · Feb. 16-18, 1990**

The objectives of this workshop are to share, discuss and disseminate recent research on and techniques (hardware and software) in real time development tools, methods and environments. Attendees will hear presentations from industry experts on many topics, including:

<b>Embedded System Considerations</b>	<b>Development Tools</b>
<b>Programming Environments</b>	<b>Forth Engines and Software</b>
<b>Multitasking/Multiuser Systems</b>	<b>Fault Tolerant Systems</b>
<b>Development Methods</b>	<b>Engineering Considerations</b>
<b>Execution Monitoring</b>	<b>Development System Architectures</b>
<b>Debugging Environments</b>	<b>Programming Methods</b>

Papers for oral and poster presentations are requested from computer professionals and other interested parties. Facilities will be available for scientific and technical demonstrations. Pre-publication proceedings will be made available to the participants at the workshop. Vendors of software and/or hardware may request exhibit space. Authors should submit an abstract of 250 words or less, typed, double spaced, by the deadline below. Contributed papers should be previously unpublished work. You are not required to present a paper to attend the workshop.

**Please send abstracts and requests for workshop information to:**

**Howard Harkness**  
3316 Vine Ridge  
Bedford, Texas 76021  
(214) 580-1515 x545

**TIMETABLE:**

Receipt of abstract:

Oct. 1, 1989

Receipt of paper:

Dec. 1, 1989

**Sponsored by the ACM Special Interest Group on Forth**
